

# HARD WATER FOR STEAM CREATES HARD PROBLEMS TO SOLVE.

Water treatment is essential to sustain business success by preventing interruptions, costly repairs, and inefficiencies. Expensive steamers and combi-ovens are susceptible to limescale and corrosion from water impurities. Prioritizing water treatment is crucial to minimize the risk of costly repairs and downtime.

## WHY DO I NEED FILTRATION?

### WARRANTY PROTECTION

Keep your warranty enforceable for expensive capital equipment

### HELP EXTEND MACHINE LIFE

Stop corrosive chemicals and damage from ruining your steam equipment

### SAVE TIME AND LABOR

Reduce the need for cleaning and maintenance to remove scale and clogs

**Fact:** Just an eighth of an inch of scale can increase steamer energy usage by 25%.\*
